Preface

With considerable delay due to a number of unforeseen circumstances we present you the annual report of the activities of the Research Institute for Psychology & Health. As the report shows, the number of activities organized by the institute were significant, both in the area of activities specifically designed for the training of Ph.D. students and in the area of more general activities both for Ph.D. students and senior members of the institute. We certainly hope that you will enjoy reading the report and that it will provide good insight in the importance of the contributions of all researchers involved in the Research Institute for Psychology & Health.

Denise de Ridder, Ph.D.
Scientific Director

1. ORGANIZATION AND MEMBERSHIP

1.1 Organizational structure

The Research Institute for Psychology & Health is an interuniversity Research Institute accredited by the Royal Dutch Academy of Arts and Sciences (KNAW) in accordance with the Dutch Law on Higher Education (WHW, art. 8.1, 9.23, and 9.55). It was founded on January 1, 1995. In conformity with the WHW and the criteria of the KNAW, the institute has discretion with respect to the development of its research and Ph.D.-training program, and the administration of personnel and material facilities.

The Research Institute for Psychology & Health was established on the basis of a collaborative initiative of the Universities of Utrecht (UU), Leiden (UL), and Tilburg (UvT), and the Dutch Institute for Primary Health Care (NIVEL), including researchers from the field of cognitive, developmental, clinical, health, social, and organizational psychology, and researchers attached to various medical departments. Since the founding in 1995, several other universities (faculties) have joined P&H on the basis of a formal working agreement: in 1997 the Vrije Universiteit Amsterdam (VU, Social and Cultural Sciences), in 1998 the University of Groningen (RUG, the Northern Center for Health Care Research) and the University of Amsterdam (UvA-AMC, Medical Psychology of the University Hospital), in 2000 the Belgian universities of Leuven (Psychology and Pedagogy) and Ghent (Psychology and Pedagogy), and the VU University Amsterdam (VU, Psychology), and finally, in 2002, the Helen Dowling Institute in Utrecht. Furthermore, P&H holds affiliate memberships with researchers of the Twente University of Technology (Psychology), TNO Prevention & Health in Leiden, and the University of Amsterdam (Social Sciences). In 2004, researchers of Nijmegen University (Medical Psychology) joined the research institute as affiliate members. The 'penvoering' and secretariat of P&H are located at the Faculty of Social Sciences of Utrecht University.

The sections below summarize the main tasks and responsibilities of the board and committees of P&H, and provide information on their composition and activities in 2006. Tasks and responsibilities are further specified in the Institute's Regulations and Procedures.

1.2 Board

The board of P&H is responsible for the overall policy of the Research Institute. The board defines: the five-yearly and annual research program; the training program for Ph.D.-candidates, including guidelines for the selection, acquisition, supervision and evaluation of Ph.D.- and postdoc-projects and candidates; membership criteria and guidelines for the admission of senior staff, as well as the annual budget plan (in consultation with the faculties participating). The scientific director participates in the meetings of the board with an advisory vote. The office manager is the board's secretary.

On December 31, 2006, the board, including the chair, consisted of 7 members and one external advisor:

- | | |
|---------------------------------------|------------------------------------|
| - Prof.dr. R. Sanderman, chair | (Groningen University) |
| - Prof.dr. T. van Tilburg, vice chair | (Vrije Universiteit Amsterdam) |
| - Prof.dr. J.M. Bensing | (Utrecht University/NIVEL) |
| - Prof.dr. J. van den Bout | (Utrecht University) |
| - Prof.dr. G. Crombez | (Ghent University) |
| - Prof. dr. G. Kok | (Maastricht University) |
| - Drs. M. Fischer | (Ph.D. Council, Leiden University) |
| - Dr. Bert de Jong | (external advisor) |

Main activities in 2006:

In 2006, the Board of P&H met on March 16. First, plans for a new, workshop-like format of the P&H Core Module, for the re-organization of the P&H Expert Groups, and for a more active role of the P&H Research Committee in stimulating joint research (applications) of P&H members were presented and discussed. Next, the representative of the Ph.D. Candidates Council summarized the results of a recent survey among P&H Ph.D.-students to take stock of their training needs. The Board agreed with the entry of the Maastricht Institute of Psychological Research to P&H, and with the suggested changes in the composition of the Board and the Research Committee, respectively. Finally, the future of P&H and the recent re-accreditation by KNAW-ECOS were briefly discussed.

1.3 Scientific director and staff

On behalf of the board, the scientific director is responsible for the effectuation of the Institute's policy and the day-to-day management. This includes: the planning and supervision of the effectuation of the research and training programs; the preparation of the five-yearly research plan; the drafting of the annual budgets; the supervision of selection and evaluation procedures for Ph.D.- and postdoctoral projects and candidates; the development and effectuation of policy regarding publications; and the management and coordination of the Institute's contacts, activities, and public relations. Scientific director was Prof.dr. Denise de Ridder, Professor of Health Psychology at the Faculty of Social Sciences of Utrecht University. The scientific director was assisted by the deputy director, Dr. Pascale Le Blanc. The deputy director supports the director, particularly in matters relating to (the programming of) research and the coordination of the Ph.D.-training programme. The management team was supported by administrative staff at the Faculty of Social Sciences of Utrecht University, consisting of Mrs. Lizet Hoekert-Korteweg (office manager) and Ms. Janet Hurtado (secretary).

1.4 Research Committee

In the coordination and effectuation of P&H's research policy, the board and the scientific director are advised by the Research Committee. The major task of this committee is the selection and evaluation of research proposals for Ph.D.- and postdoc-projects. The scientific director participates in the meetings of this committee with an advisory vote, while the deputy director acts as its secretary.

On December 31, 2006, the Research Committee consisted of the following members:

- Prof.dr. L. van Doornen (chair)	(Social Sciences, Utrecht University)
- Prof. dr. A. Kaptein (vice chair)	(Social Sciences, Leiden University)
- Dr. H. Schut	(Social Sciences, Utrecht University)
- Dr. E. Smets	(Medicine, University of Amsterdam)
- Dr. M. Smeets	(Social Sciences, Utrecht University)
- Dr. J. de Wit	(Social Sciences, Utrecht University)
- Dr. B. Orobio de Castro	(Social Sciences, Utrecht University)
- Prof.dr. A. Vingerhoets	(Social Sciences, University of Tilburg)

Main activities in 2006:

In 2006, the Research Committee of P&H met three times: on February 2, May 18, and June 27. During the meeting of February 2, members actively discussed ideas and suggestions with respect to a more active role of the P&H Research Committee in the programming of P&H Research. This discussion was continued during a special one-day meeting on May 18, during which the committee members listed potential, external funding agencies for P&H research, selected eight scientifically and/or socially relevant research themes, and drafted a workplan (including so-called P&H starting grants for preparatory meetings). On June 27, the working out of four research themes was discussed in more detail, and criteria for the submission and evaluation of P&H-starting grants were established

In addition, throughout the year, several new Ph.D.- and postdoc-projects and proposals were evaluated by the members of the committee. During the year, the committee accepted the following projects as P&H-research: In Area I, the following postdoc projects were accepted: 'Defining the Type D phenotype: Latent trait-item response models and construct validity' by Prof. dr. J. Denollet & Dr. A. Aquarius (Tilburg University), and 'Cellular interface between Type D and heart disease: In search of new cardiovascular risk factors' by Prof. dr. J. Denollet & Dr. N. Kupper (Tilburg University). Moreover, the following Ph.D.-projects were accepted: 'Type D and vascular atherosclerosis' by Prof. dr. J. Denollet, Dr. J. de Vries & Dr. A. Aquarius (Tilburg University; Ph.D. student started in 2005), and 'Type D-personality and heart failure: Burden of a life-threatening cardiac condition in an ageing population' by Prof. dr. J. Denollet (Tilburg University; Ph.D. student started in 2005). In Area II, the following Ph.D. projects were accepted: 'Personality factors in PTSD: Studies on the relationship between trauma exposure, personality, and therapeutic efficacy in Dutch soldiers' by Prof. dr. R. Kleber (Utrecht University; Ph.D. student started in 2005), 'Deconstructing delayed posttraumatic stress disorder' by Prof. dr. R. Kleber (Utrecht University; Ph.D. student started in 2007), and 'Delen in de zorg: keuzes van volwassen kinderen met zorgbehoevende ouders' by Prof. dr. T. van Tilburg & Dr. M.I. Broese van Groenou (VU University Amsterdam).

In Area III, the following project was accepted: 'The psychological contract between the older worker and the organization' by Dr. A de Lange (Vrije Universiteit Amsterdam).

In Area IV, the following post-doc project was accepted: 'Message framing for cancer prevention' by Prof. dr. G. Kok, Dr. R. Ruiter & Dr. M. Werry (Maastricht University). Moreover, the following Ph.D.-projects were accepted: 'Improving adolescent traffic safety' by Prof. dr. G. Kok & Dr. R. Ruiter (Maastricht University), 'Coming-out, coming-in and HIV-risk' by Prof. dr. H. Hospers (Maastricht University), 'HIV preventive interventions for HIV positives' by Prof. dr. G. Kok, Dr. H. Schaalma & Prof. dr. H. Hospers (Maastricht University), 'Effectieve voorlichting over bloeddonatie' by Prof. dr. G. Kok & Dr. H. Schaalma (Maastricht University), 'Bevordering HIV-testen' by Prof. dr. G. Kok (Maastricht University), 'Interactieve gezondheidsvoorlichting over XTC' by Prof. Dr. G. Kok (Maastricht University), 'Verbetering effectiviteit publiekscampagnes' by Prof. Dr. G. Kok & Dr. R. Ruiter (Maastricht University), 'Improving patient adherence to HAART' by Prof. Dr. H. Hospers (Maastricht University), 'Does planning facilitate self-regulation? The role of implementation intentions in the realisation of personal goals related to healthy eating' by Prof.dr. D.T.D. de Ridder & Dr. J. de Wit (Utrecht University), and 'Gecontroleerde studie naar de effecten van interventies ter promotie van dagelijkse fysieke activiteiten bij patiënten met diabetes' by Prof. dr. I. De Bourdeaudhuy (Ghent University).

In Area V, the following postdoc project was accepted: 'Communication and role delineation in pediatric oncology: A multi-perspective view on policies, practices, and preferences' by Prof. dr. J. Bensing, Dr. S. van Dulmen, Dr. K. Tates & Dr. M. Zwaanswijk (NIVEL). Moreover, the following Ph.D.-projects were accepted: 'Evaluatie van het zorgprogramma COPD-Utrecht' by Prof. dr. G. Schrijvers (UMCU/Utrecht University), and 'Cancer patients wish not to know and tailored information giving: A prospective study' by Prof. dr. H. de Haes & Dr. E. Smets (University of Amsterdam; Ph.D. student started in 2005).

1.5 Training Committee

In the planning and evaluation of the Institute's training program, the board and the scientific director are advised by the Training Committee. The scientific director participates in the meetings of the committee with an advisory vote, while the deputy director acts as its secretary.

On December 31, 2006, the Training Committee consisted of:

- Dr. E. Eurelings, chair (Social Sciences, Leiden University)
- Dr. A. Ranchor, vice chair (NCG, Groningen University)
- Drs. M. van den Berg (Ph.D. Council, Utrecht University)
- Dr. J. Brosschot (Social Sciences, Leiden University)
- Dr. R. Geenen (Social Sciences, Utrecht University)
- Prof.dr. P. van der Heijden (Social Sciences, Utrecht University)
- Drs. I. Henselmans (Ph.D. Council, Groningen University)
- Dr. M. Peeters (Social Sciences, Utrecht University)
- Dr. H. Schaalma (Psychology, Maastricht University)

Main activities in 2006:

On December 14, 2006, the P&H Training Committee convened for its annual meeting. First, the new format of the P&H Core Module and the restructuring of the P&H Expert Groups were discussed, followed by a brainstorm on the future more active role of the Training Committee as regards the design of the P&H training program. Regular issues on the agenda were the evaluations of the International Research Seminar in 2006, i.e., Positive Occupational Health Psychology (December, 7-9, 2006), the P&H General Introduction, Core Module, and Ph.D. Research Seminar I, the fourth annual P&H Day (January 26, 2006), and the Sixth Conference on Psychology & Health (May, 8-10, 2006). The Ph.D.-training program for 2007 was approved.

1.6 Ph.D. Council

In matters concerning the training, counseling and supervision of Ph.D.-candidates, the board and scientific director are advised by the Council of Ph.D.-candidates. The council consists of members from the participating faculties and institutes and appoints from its midst one representative in the Board of P&H and three representatives in the Training Committee. On December 31, 2006, the council was represented by:

- Drs. M. van den Berg (Helen Dowling Institute)

- Drs. I. Henselmans (Groningen University)
- Drs. M. Fischer (Leiden University)
- Drs. W. Oerlemans (Utrecht University)
- Drs. E. Bloem (University of Amsterdam)

The council's representative in the Board of the Institute was drs. Maarten Fischer. Drs. Inge Henselmans represented the Ph.D. Council in the Training Committee.

Main activities in 2006:

Throughout the year, the Ph.D. Council met regularly to discuss current P&H-issues and Ph.D.-affairs in general. As in previous years, the Ph.D. Council formally presented itself at the P&H General Introduction for new Ph.D.-candidates, recruited the organizing committee of the second P&H Day and wrote columns for the P&H Newsletter. A survey among Ph.D.-candidates about satisfaction regarding P&H membership and the available education programme was finished in 2006. Results were reported in the P&H Newsletter. Students highly appreciated the P&H courses and seminars as well as the network of experts and fellow students in the field of health psychology. One wish was to increase the interaction between members and stimulate members to share information. This wish has been acknowledged by the board and has led to the development of 'P&H ExChange', an internet-based tool for Expert Groups to share information.

Furthermore, the students' remarks and suggestions about the organization of the educational 'core module' has been discussed in the Training Committee and the board meetings. Suggestions have been taken into account in the revision of the training program in 2007.

1.7 Research coordinators

The Board of the Research Institute for Psychology & Health appoints coordinators for the five research areas. The coordinators are responsible for the effectuation of P&H's research program and the specific development of this program in their respective areas. At the end of 2006, the coordinators of the five areas were:

Area I: Neurocognition and Psychophysiology of Health:

- Prof.dr. L. van Doornen (Utrecht University)

Area II: Critical Life Events and Mental Health:

- Dr. E.H.M. Eurelings-Bontekoe (Leiden University) and Dr. R.J. Kleber (Utrecht University)

Area III: Work, Stress, and Health:

- Prof.dr. W.B. Schaufeli (Utrecht University)

Area IV: Health Behavior: Determinants, Consequences, and Strategies of Change:

- Prof.dr. J. de Wit (Utrecht University)

Area V: Psychological and Psychobiological Factors in Adaptation to Chronic Illness:

- Prof.dr. R. Sanderman (Groningen University), Prof.dr. J. Bensing (Utrecht University/NIVEL), and Prof.dr. H de Haes (University of Amsterdam)

However, due to changes in membership over the past years - most notably the out flux of some neurocognitive, developmental, and social psychological scientists to other research institutes – and the gradual growth of the school, a new structure consisting of Expert Groups was proposed by the scientific director that has been accepted by the board of P&H in 2003. The purpose of the Expert Groups is identical to that of the areas, as mentioned above. In addition, expert groups are meant to play a more prominent role in the Ph.D.-training program. The areas will remain intact as a purely administrative supra-structure. The potential negative effect on the cross-fertilization of these relatively small and homogeneous groups is counteracted by centrally orchestrated activities such as the bi-annual P&H conference, International Research Seminars, and Ph.D.-seminars. The Expert Groups were restructured during 2006; by the end of 2006, the coordinators of the 10 Expert Groups were:

Expert Group 1: Medically unexplained symptoms

- Prof.dr. L. van Doornen (Utrecht University)

Expert Group 2: Psychotrauma and grief

- Prof.dr. R. Kleber (Utrecht University)

Expert Group 3: Eating behaviour

- Prof.dr. D. de Ridder (Utrecht University)

- Expert Group 4: Life span development
 - Prof.dr. T. van Tilburg (Vrije Universiteit Amsterdam)
- Expert Group 5: Work, stress and health
 - Prof.dr. H. de Witte (University of Leuven)
- Expert Group 6: Sexual behaviour
 - Prof.dr. J. de Wit (Utrecht University)
- Expert Group 7: Adjustment to chronic illness
 - Dr. A. Ranchor (Groningen University) and Dr. M. Rijken (NIVEL)
- Expert Group 8: Patient-provider interaction
 - Prof.dr. Jozien Bensing (NIVEL)
- Expert Group 9: Planned behaviour change
 - Prof.dr. H. Hospers (Maastricht University)
- Expert Group 10: Public mental health
 - Dr. H. van Stel (UMCU/Utrecht University)

1.8 Membership

On December 31, 2006, 107 senior researchers and postdoctoral fellows (15 affiliate members, 3 pro memori, and 1 honorary members not included) were attached to the Research Institute for Psychology & Health, altogether bringing in 45.96 fte of research capacity. Table 1 presents data about the institutional affiliation of the P&H members.

Table 1.

	Members	fte	% members	% fte
Utrecht University, Soc. Sciences	34	13.28	31.8	28.9

Affiliated and pro memori members

The board of the Research Institute values cooperation with researchers in the field of psychology and health research who are attached to faculties or institutions not (formally) participating in P&H. These affiliate members - some of whom are members of other research institutes - do not bring in formal research time. They have to meet the formal publication criteria.

Department of Psychology at Twente University of Technology:

- Prof.dr. R. Van der Vegt

1.10 Finance

Utrecht University and the faculty of Social Sciences provided € 75.000 of P&H's annual budget. The universities, faculties and research institutes participating in Psychology & Health, including those at Utrecht, contributed € 45.307 in membership fees. With several minor bookings, total income summed up to € 127.254 in 2005.

Costs for personnel (director and secretariat) totalled € 121.121, while material costs totalled (only) € 18.949, leaving a negative balance by the end of the year of € 12.816.

Payment of the first participation fees for the 2006 Rolduc conference resulted in € 2.935 income on the conference account in the financial year 2005. On December 31, costs for the preparations for the next conference stood at € 397, making a positive balance on this special account of precisely € 2.538.

2. TRAINING

2.1 Ph.D.-candidates

In the course of 2006, 14 new Ph.D.-projects were started, 9 at Maastricht University, 2 at Utrecht University, 2 at the VU University Amsterdam, 1 at Ghent University, and 1 at the Helen Dowling institute.

On December 31, 2006, 65 Ph.D.-candidates were attached to the Research Institute for Psychology & Health. Table 2 presents information about their institutional affiliation. Not included in this number are the 15 projects that were successfully completed in 2006 with the public defense of the Ph.D.-thesis: 4 at Utrecht University, 2 at Tilburg University, 1 at Leiden University, 3 at the University of Amsterdam, 1 at Leuven University, 2 at Ghent University, and 2 at the VU University Amsterdam.

Table 2. Ph.D.-projects by university, 2006

	projects	% projects
Utrecht University	20	30.8
Leiden University	10	15.4
Maastricht University	8	12.3
Tilburg University	8	12.3
VU University Amsterdam	7	10.8
Groningen University	5	7.7
Ghent University	2	3.1
University of Amsterdam	2	3.1
Helen Dowling Institute	2	3.1
NIVEL	1	1.5
Total	65	100

2.2. Ph.D.-projects completed in 2006

Dr. E. Olde, Department of Clinical Psychology, Utrecht University

Childbirth-related posttraumatic stress: A prospective longitudinal study on risk factors

Defended: 13-01-2006

Promotors: Prof.dr. O. van der Hart & Prof.dr. R.J. Kleber

Area: II

Current position: Gezondheidspsycholoog bij Mentrum geestelijke gezondheidszorg, Amsterdam

Dr. L.C.W. Wiggers, Department of Medical Psychology, AMC, University of Amsterdam

Smoking cessation in patients with cardiovascular disease

Defended: 27-01-2006

Promotor: Prof.dr. J.C.J.M. de Haes & Dr. D.A. Legemate

Copromotor: Dr. E. Smets

Area: IV

Dr. K. van Rijswijk, Department of Psychology, Tilburg University

It's about time: part-time, flexitime, and a healthy work-home balance

Defended: 10-02-2006

Promotors: Prof.dr. CG. Rutte & Prof.dr. G.L.M. van Heck

Copromotor: Dr. M.H.J. Bekker

Area: III

Current position: Beleidsmedewerker – Ministerie van Sociale Zaken

Dr. S. Spoor, Department of Psychology, Tilburg University

Feeling bad, fat or ugly: Inner body versus outward appearance in women

Defended: 12-04-2006

Promotor: Prof.dr. G.L. van Heck

Co-promotor: Dr. M. Bekker & Dr. T. van Strien

Current position: Postdoc researcher University of Texas (Oregon Research Institute, Eugene, Oregon)

Dr. B. Zwirs, Center for Migration and Child Health, WKZ, Utrecht University
Externalizing disorders among children of different ethnic origin in the Netherlands
Defended: 19-05-2006
Promotores: Prof. dr. T.W.J. Schulpen & Prof.dr. J.K. Buitelaar
Copromotor: Dr. H. Burger
Area : V

Dr. A. Eertmans, Research Group for Stress, Health and Well-being, University of Leuven
Sensory-affective and other determinants of food choice: their relative importance and variability across individuals and situations
Defended: 08-06-2006
Promotores: Prof.dr. O. van der Bergh
Copromotor: Dr. M Vansant
Area: V
Current position: ISW Limits, een spin-off van de universiteit

Dr. I. van Korlaar, Department of Medical Psychology, Leiden University
Venous thrombosis: a patient's view
Defended: 14-06-2006
Promotor: Prof.dr. F. Rosendaal
Copromotor: Dr. A. Kaptein
Area: V
Current position: Verliet academia en werkt bij Elsevier

Dr. E. Hartman, Department of Medical Psychology, University of Amsterdam
Quality of Life and care needs of people born with anorectal malformations or Hirschsprung's disease
Defended: 23-06-2006
Promotores: Prof.dr. H. de Haes, Prof.dr. H. Heij & Prof.dr. M.A.G. Sprangers
Copromotores: Dr. D.C. Aronson & Dr. F.J. van Oort
Area: V
Current position: Assistant professor Department of Developmental/Pediatric Psychology, Tilburg University

Dr. P. de Vlieger, Department of Behavior Therapy and Psychological Supervision, Ghent University
The costs of attempting to control uncontrollable pain: An experimental and clinical investigation
Defended: 07-07-2006
Promotores: Prof.dr. Geert Crombez
Area: V
Current position: Practitioner (planningsverantwoordelijke) at an OCMW

Dr. M. Craeynest, Department of Movement and Sport Sciences, Ghent University
Overweight and obesity in children and adolescents. The role of implicit cognitions towards food and physical activity
Defended: 07-09-2006
Promotores: Prof.dr. Geert Crombez & Prof.dr. I. De Bourdeaudhuij
Area: V
Current Position: Lecturer at Lessius High School, Antwerpen

Dr. P.M.C. Mommersteeg, Department of Health Psychology, Utrecht University
The Psychophysiology of burnout
Defended: 06-10-2006
Promotores: Prof.dr. L. van Doornen & Prof.dr. Coby Heijnen
Area: I
Current position: Postdoc researcher UMC Utrecht, Utrecht University

Dr. L.C. Zandbelt, Department of Medical Psychology, AMC, University of Amsterdam
Patient-centred communication in the medical specialist consultation

Defended: 08-12-2006
Promotor: Prof.dr. J.C.J.M. de Haes
Copromotor: Dr. E.M. Smets
Area: V
Current position: Postdoc Researcher AMC, University of Amsterdam

Dr. S. van der Pas, SCW, Vrije Universiteit Amsterdam
Intergenerational relationships of older adults: Family structure, contact and norms
Defended: 12-12-2006
Promotor: Prof.dr. C.P.M. Knipscheer and Prof. dr. T.G. van Tilburg
Area: II

Dr. A.M. Kleiboer, Department of Health Psychology, Utrecht University
Couples dealing with multiple sclerosis. A diary study examining the effects of spousal interactions on well-being
Defended: 15-12-2006
Promotores: Prof.dr. J. Bensing & Prof.dr. J.J. Hox
Copromotor: Dr. R. Kuijer
Area: V
Current position: Post-doc researcher, Utrecht University

Dr. B. Steunenbergh, Department of Clinical Psychology, Vrije Universiteit Amsterdam
Personality and Depression in Beter Life
Defended: 19-12-2006
Promotores: Prof.dr. A.J.F.M. Kerkhof & Dr. A.T.F. Beekman
Area: II
Current position: Assistant professor, Department of Clinical Psychology, Vrije Universiteit Amsterdam

2.3 Ph.D.-projects started in 2006

Drs. M. Adriaanse, Department of Clinical and Health Psychology, Utrecht University
Does planning facilitate self-regulation? The role of implementation intentions in the realization of personal goals related to healthy eating
Promotores: Prof. dr. D. de Ridder & Prof. dr. J. de Wit
Area: IV
Duration: 1-9-2006 until 1-9-2010
Funding: P&H

Drs. M. de Bruin, Faculty of Psychology, Maastricht University*
Improving patient adherence to Highly Active Antiretroviral Therapy
Promotor: Prof. dr. H. Hospers & Prof. dr. G. Kok
Area: IV
Duration: 1-3-2004 until 1-3-2008
Funding: AARDEX (Farm. Ind.) & Maastricht University
* Accepted as P&H Research by the Research committee in 2006

Drs. H. Feenstra, Faculty of Psychology, Maastricht University
Verbeteren verkeersgedrag jongeren
Promotor: Prof. dr. G. Kok
Copromotores: Dr. R. Ruiter
Area: IV
Duration: 1-1-2006 until 1-1-2010
Funding: Regionaal Overleg Verkeersveiligheid Limburg, ROVL

Drs. D. Franssens, Faculty of Psychology, Maastricht University
Coming-out, coming-in en HIV risico

Promotor: Prof. dr. H. Hospers en Prof. dr. Gerjo Kok
Area: IV
Duration: 1-1-2006 until 1-1-2010
Funding: Aidsfonds

Drs. K. de Greef, Department of Movement and Sport Sciences, Ghent University

Controlled study towards the effects of promotion of daily physical activity with type 2 diabetes patients

Promotor: Prof. dr. I. De Bourdeahuij
Area: V
Duration: 1-9-2006 until 1-9-2010
Funding: BOF = Bijzonder OnderzoeksFonds

Drs. E. de Jager-Meezenbroek, Helen Dowling Instituut

Spirituality in patients with cancer - the development of a spirituality questionnaire

Promotor: Prof. dr. W.B. Schaufeli
Co-promotores: Dr. B. Garssen & Dr. A.P. Visser
Area: V
Duration: 1-5-2006 until 1-1-2009
Funding: KWF / Dutch Cancer Society

* Project taken over from Drs. M. van den Berg (started 1-7-2004)

Drs. N. van Kesteren, Faculty of Psychology, Maastricht University*

HIV-preventive interventions for HIV-positives

Promotores: Prof. Dr. G. Kok & Prof. Dr. H. Hospers
Area: IV
Duration: 1-2-2000 until 14-10-2006
Funding: ZonMw

* Accepted as P&H Research by the Research committee in 2006

Drs. K. Lemmens, Faculty of Psychology, Maastricht University*

Effectieve voorlichting over bloeddonatie

Promotor: Prof. dr. H. Schaalma
Copromotores: Dr. R. Ruiter
Area: IV
Duration: 1-9-2003 until 1-9-2007
Funding: SANQUIN (gezamenlijke bloekbanken)

* Accepted as P&H Research by the Research committee in 2006

Drs. J. Mikolajczak, Faculty of Psychology, Maastricht University*

Bevordering HIV-testen

Promotor: Prof. dr. G. Kok & Prof. Dr. H. Hospers
Area: IV
Duration: 1-3-2003 until 19-09-2008
Funding: ZonMw + Maastricht University

* Accepted as P&H Research by the Research committee in 2006

Drs. A. Niesink, UMC Utrecht, Utrecht University

Evaluatie van het zorgprogramma COPD - Utrecht

Promotor: Prof. dr. G. Schrijvers
Area: V
Duration: 1-1-2006 until 1-1-2008
Funding: Utrecht University

Drs. G.J. Peters, Faculty of Psychology, Maastricht University

Interactieve gezondheidsvoorlichting over XTC

Promotor: Prof. dr. G. Kok

Copromotor: Dr. Ch. Abraham
Area: IV
Duration: 1-9-2003 until 1-9-2008
Funding: Min . VWS
* Accepted as P&H Research by the Research committee in 2006

Drs. N. Varenik, SCC, Vrije Universiteit Amsterdam
Delen in de zorg: keuzes van volwassen kinderen met zorgbehoevende ouders
Promotor: Prof. dr. T. van Tilburg
Co-promotors: Dr. M.I. Broese van Groenou
Area: II
Duration: 1-1-2006 until 31-12-2009
Funding: NWO

Drs. J. Whittingham, Faculty of Psychology, Maastricht University*
Verbetering effectiviteit publiekscampagnes
Promotor:
Copromotor: Dr. R. Ruiter
Area: IV
Duration: 1-9-2002 until 21-12-2007
Funding: Zon Mw
* Accepted as P&H Research by the Research committee in 2006

2.4 Current Ph.D.-projects

P&H dissertation projects started in 2000

Drs. M.H.J. Assink, Department of Clinical Psychology, Vrije Universiteit Amsterdam
The Dynamical Self: the LIM in a longitudinal perspective
Promotor: Prof.dr. A.J.F.M. Kerkhof
Co-promotor: Dr. H. Schroots
Area: II
Duration: 1-1-2000 until 1-1-2003
Funding: Vrije Universiteit Amsterdam

Drs. S. Broers, Department of Medical Psychology, University of Amsterdam
Adherence in asthma and COPD: Effects of a communication training for General Practitioners
Promotor: Prof.dr. J.C.J.M. de Haes
Co-promotors: Dr. E. Smets & Dr. P.J.E. Bindels
Area: IV
Duration: 1-12-2000 until 1-6-2005
Funding: University of Amsterdam
*project terminated after four years

Drs. G. van Daalen, Department of Psychology, Tilburg University
Consequences of combining demanding family life and paid work
Promotor: Prof. dr. T. Willemsen
Co-promotor: Dr. F. Zijlstra
Area: III
Duration: 1-3-2000 until 1-7-2004
Funding: Tilburg University

Drs. E. Ivanova, Department of Clinical Psychological, Vrije Universiteit Amsterdam
Classification and motivation of attempted suicide in a cross-cultural context
Promotors: Prof.dr. A.J.F.M. Kerkhof
Co-promotors: Dr. E. Blaauw & Dr. D. Gailienė (Vilnius University, Lithuania)

Area: II
Duration: 1-1-2000 until 1-11-2004
Funding: Vrije Universiteit Amsterdam

Drs. S. Pieper, Department of Clinical and Health Psychology, Leiden University
Prolonged autonomic activation after anger provocation and worry in daily life

Promotor: Prof.dr. S. Maes
Co-promotor: Dr. J. Brosschot
Area: V
Duration: 1-12-2000 until 1-12-2004
Funding: Leiden University

Drs. I. Viane, Department of Behaviour Therapy & Counseling, Ghent University
Attention to chronic pain: A dynamical interaction between pain characteristics and characteristics of daily activities

Promotor: Prof.dr. G. Crombez
Area: V
Duration: 1-1-2000 until 31-12-2004
Funding: FWO

Drs. G. Visser, Department of Sociology & Social Gerontology, Vrije Universiteit Amsterdam
Volunteer aid in the terminal phase

Promotors: Prof.dr. C.P.M. Knipscheer & Prof. dr. G. van der Wal
Co-promotors: Dr. M. Broese van Groenou & Dr. D.L. Willems
Area: II
Duration: 1-5-2000 until 30-4-2004
Funding: VSB Bank and Ministry of VWS

*project terminated after three years

Drs. A.E. Voerman, Helen Dowling Institute, Utrecht
Psychosocial problems and the need for specialized psycho-oncological care in prostate cancer patients

Promotor: Prof.dr. J. Bensing
Co-promotor: Dr. A. Visser
Area: V
Duration: 1-12-2000 until 1-12-2004
Funding: KWF/Dutch Cancer Society

Drs. V. Wijnen, Department of Psychology, Tilburg University
The effects of intensive neurorehabilitation on neurophysiological functions in children and adolescents in a vegetative or low aware state

Promotors: Prof.dr. A. Vingerhoets & Prof. dr. H. van der Vlugt
Area: V
Duration: 1-12-2000 until 1-12-2004
Funding: Tilburg University

P & H dissertation projects started in 2001

Drs. B. Bloem, Department of Sociology & Social Gerontology, Vrije Universiteit Amsterdam
Social embeddedness before and after a residential relocation of older adults living independently

Promotor: Prof.dr. C.P.M. Knipscheer,
Co-promotor: Dr. T.G. van Tilburg & Dr. G.C.F. Thomese
Area: II
Duration: 1-10-2001 until 1-10-2005
Funding: NWO

Drs. M.S.M. van Dolderen, Department of Developmental Psychology, Utrecht University

The development of non-verbal communication skills in relation to depression in adolescence

Promotor: Prof.dr. W. Koops
Co-promotor: Dr. Y. van Beek
Area: II
Duration: 1-5-2001 until 1-5-2005
Funding: Utrecht University
* project terminated after four years

Drs. S. Huisman, Department of Clinical and Health Psychology, Leiden University

Food safety and risk-perception

Promotor: Prof.dr. S. Maes
Area: IV
Duration: 1-1-2001 until 1-12-2006
Funding: Leiden University

Drs. T. Jaarsma, NCG, Groningen University

The role of vision in life and sensemaking after confrontation with cancer

Promotor: Prof.dr. R. Sanderman
Co-promotor: Drs. G. Jonker-Pool
Area: V
Duration: 16-10-2001 until 1-9-2006
Funding: Dutch Cancer Society/KWF

Drs. K. Schlich, Department of Medical Psychology, UMC Utrecht

Breaking the rule of nondirectiveness: Psychosocial consequences of bringing breast cancer patients in a genetic counselling procedure

Promotor: Prof.dr. J. van den Bout
Co-promotor: Dr. H.F.J. ten Kroode
Area: V
Duration: 1-9-2001 until 01-1-2007
Funding: Dutch Cancer Society/KWF

Drs. M. ter Wolbeek, Department of Health Psychology, Utrecht University

Fatigue among adolescents: Psychological, hormonal and immunological aspects

Promotor: Prof. dr. L.J.P. van Doornen & Prof. Dr. C.J. Heijnen
Area: I
Duration: 1-6-2001 until 1-6-2006
Funding: Utrecht University

P& H dissertation projects started in 2002:

Drs. M. Mulders, Department of Clinical Health Psychology, Tilburg University*

Scalp cooling to prevent hair loss as a consequence of chemotherapy

Promotor: Prof.dr. A. Vingerhoets
Area: V
Duration: 1-11-2001 until 1-11-2005
Funding: Tilburg University (SOBU)

*Accepted as P&H Research by the Research committee in 2002

**Project terminated after two years

Drs. M. Guiaux, Department of Sociology & Social Gerontology, Vrije Universiteit Amsterdam

Conjoint developments in personal networks and loneliness after widowhood

Promotor: Prof. Dr. C.P.M. Knipscheer
Co-promotors: Dr. T.G. van Tilburg & Dr. M.I. Broese van Groenou
Area: II

Duration: 1-1-2002 until 1-1-2006
Funding: NWO

Drs. M. Huitema, Department of Nursing Sciences, UMC Utrecht*

Introductie van de oncologische follow-up, uitgevoerd door een verpleegkundig specialist: Evaluatie van de effecten op de kwaliteit van de voorlichting en de psychosociale begeleiding

Promotores: Prof.dr. M.H.F. Grypdonck & Prof.dr. A.P.M. Heintz

Co-promotor: Dr. W.J.G. Ros

Area: V

Duration: 1-10-2000 until 1-10-2004

Funding: KWF/Dutch Cancer Society

*Accepted as P&H Research by the Research committee in 2002

*Project terminated after 3 years

Drs. M. Korporaal, Department of Sociology & Social Gerontology, Vrije Universiteit Amsterdam

Exchanges of support and care in later life partner relationships: Antecedents and consequences for personal relationships, health and well-being

Promotor: Prof.dr. C.P.M. Knipscheer

Co-promotores: Dr. M.I. Broese van Groenou & Dr. T.G. van Tilburg

Area: II

Duration: 1-1-2002 until 1-1-2006

Funding: NWO

Drs. E. Maris, Department of Social & Organizational Psychology, Leiden University

Highly annoyed: One mark, multiple meanings

Promotor: Prof.dr. P.J.M. Stallen

Co-promotor: Dr. H. Steensma

Area: III

Duration: 1-1-2002 until 1-1-2006

Funding: Leiden University and Platform Nederlandse Luchtvaart

Drs. M. Oosterom, Department of Nursing Sciences, UMC Utrecht*

Introductie van de oncologische follow-up, uitgevoerd door een verpleegkundig specialist: evaluatie van de effecten op de kwaliteit van de voorlichting en de psychosociale begeleiding

Promotores: Prof.dr. M.H.F. Grypdonck & Prof.dr. A.P.M. Heintz

Co-promotor: Dr. W.J.G. Ros

Area: V

Duration: 1-10-2000 until 1-10-2004

Funding: Dutch Cancer Society/KWF

*Accepted as P&H Research by the Research committee in 2002

*Project terminated after 3 years

Drs. M. Sonnenschein, Department of Health Psychology, Utrecht University

Electronic daily monitoring of symptoms, maintaining factors and disability in burnout

Promotor: Prof.dr. L.J.P. van Doornen

Co-promotor: Dr. M.J. Sorbi

Area: V

Duration: 1-1-2002 until 1-1-2007

Funding: Faculty of Social Sciences, Utrecht University

Drs. G. ten Wolde, Department of Clinical & Health Psychology, Leiden University

De ontwikkeling en toetsing van computer-gegenereerde geïndividualiseerde patientenvoorlichting gericht op preventie en discontinuering van chronisch benzodiazepinegebruik

Promotor: Prof.dr. S. Maes

Co-promotor: Dr. A. Dijkstra

Area: IV

Duration: 4-2-2002 until 01-5-2007
Funding: College van Zorgverzekeraars and Leiden University

Drs. K. Maas, Department of Psychology, Tilburg University
The integration of the clinical health psychologist in primary care: A prospective study

Promotors: Prof. dr. J. Denollet & Prof. Dr. V.J.M. Pop

Co-promotor: Dr. I. Nyklicek

Area: II

Duration: 1-3-2002 until 28-10-2006

Funding: Tilburg University and Dr. De Groot stichting

Drs. L. Wijngaards, Department of Clinical Psychology, Utrecht University

Predictors of the adjustment after parental bereavement

Promotors: Prof. dr. J. van den Bout, Prof. dr. W. Stroebe & Prof. dr. P. van der Heijden

Co-promotors: Dr. H. Schut & Dr. M. Stroebe

Area: II

Duration: 1-3-2002 until 1-1-2007

Funding: Faculty of Social Sciences, Utrecht University

Drs. S. Langelaan, Department of Social & Organizational Psychology, Utrecht University

Are engagement and burnout each other's opposites? About psychological and physiological aspects of work-related well-being

Promotors: Prof. Dr. W.B. Schaufeli en Prof. Dr. L.J.P. van Doornen

Co-promotor: Dr. A.B. Bakker

Area: III

Duration: 1-4-2002 until 1-7-2006

Funding: Faculty of Social Sciences, Utrecht University

Drs. S. Mérelle, Department of Health Psychology, Utrecht University*

Proactive self management in migraine: Patient-to-patient support in the Dutch Headache Society

Promotors: Prof.dr. J. Passchier & Prof.dr. L. van Doornen

Co-promotor: Dr. M.J. Sorbi

Area: V

Duration: 1-7-2002 until 1-7-2007

Funding: ZonMw

* Appointed at Erasmus University Rotterdam

P&H dissertation projects started in 2003:

Drs. K. van der Hiele, LUMC, Department of Neurology, and Leiden University, Faculty of Social Sciences

Predicting cognitive decline and Alzheimer's Disease using functional MRI and quantitative EEG

Promotors: Prof.dr. H.A.M. Middelkoop & Prof.dr. M.A. van Buchem

Co-promotor: Dr. A. Vein

Area: I

Duration: 01-01-2003 until 01-01-2007

Funding: NWO

Drs. M. Mennes, Research Group for Stress, Health and Well-being, University of Leuven

The influence of prenatal maternal anxiety and stress on neurobehavioral development of the child/adolescent

Promotor: Prof. dr. L. Lagae

Co-promotors: Dr. B. Van den Bergh, Prof. dr. A. Marcoen & Prof. dr. P. VanHecke

Area: V

Duration: 1-11-2003 until 1-11-2007

Funding: FWO

* Project terminated after 3 years

Drs. P. Miles, Department of Social & Organizational Psychology, Utrecht University / Mercer HR Consulting *
Verzuimcultuur en ziekteverzuim. Over de invloed van groepsprocessen en individueel gebonden processen op verzuim

Promotors: Prof. dr. W.B. Schaufeli & Prof. dr. K. van den Bos

Area: III

Duration: 1-1-2003 until 31-12-2009

Funding: Mercer HR Consulting

*externally funded Ph.D. candidate

Drs. E. Papiés, Department of Social & Organizational Psychology, Utrecht University
Testing the Utrecht Goal Conflict Model of Eating Behavior: A social cognitive analysis

Promotor: Prof. Dr. W. Stroebe

Co-promotor: Dr. H. Aarts

Area: IV

Duration: 1-9-2003 until 1-9-2007

Funding: Utrecht University

Drs. A. Schiffer, Department of Clinical Health Psychology, Tilburg University*

Prognosis and Quality of Life in heart failure: A prospective study on biventricular pacing, psychological risk factors and proinflammatory cytokines

Promotor: Prof.dr. J. Denollet

Co-promotors: Dr. S. Pedersen & Dr. J. Widdershoven

Area: V

Duration: 1-10-2003 until 1-10-2007

Funding: Tilburg University

*project terminated after one year

Drs. B. Thoolen, Department of Health Psychology, Utrecht University

Beyond good intentions: Effectiveness of a behavioral intervention in screen-detected type-2 diabetic patients

Promotors: Prof.dr. D. de Ridder & Prof.dr. J. Bensing

Area: V

Duration: 1-10-2003 until 1-1-2007

Funding: Diabetes Fonds Nederland

Drs. I. Verwaal, Department of Psychology and Health, Tilburg University*

Psychological effects of invasive interventions in heart rate disorders: A prospective and comparative follow-up study on AF ablation, biventricular pacing and ICD implantation

Promotor: Prof.dr. J. Denollet

Co-promotor: Dr. I. Nyklicek

Area: V

Duration: 1-4-2003 until 1-4-2007

Funding: Tilburg University

*project terminated after one year

Drs. R. Vet, Department of Social & Organizational Psychology, Utrecht University

Effectiviteit van risicocommunicatie en implementatie-intenties als strategieën ter bevordering van hepatitis B vaccinatie onder homoseksuele mannen

Promotor: Prof. dr. W. Stroebe

Co-promotor: Dr. J.B.F. de Wit

Area: IV

Duration: 1-1-2003 until 1-1-2006

Funding: ZonMW

Drs. S. van der Linden, Department of Social & Organizational Psychology, Utrecht University/Zorgcirkel Waterland*

Testing the Effort-Reward Imbalance Model in Dutch health care work: An innovative panel study

Promotores: Prof. Dr. W. Schaufeli en Prof. Dr. J. Siegrist

Co-promotor: Dr. J. de Jonge

Area: III

Duration: 1-1-2000 until 1-1-2005

Funding: Zorgcirkel Waterland

*externally funded Ph.D.-candidate

*Accepted as P&H Research by the Research committee in 2003

Drs. L. Martens, Department of Psychology and Health, Tilburg University*

Percutane Coronaire Interventie (PCI) versus trombolysie bij acuut myocardinfarct: Een prospectieve follow-up study naar de effecten van interventie en psychologische risicofactoren op kwaliteit van leven en prognose.

Promotor: Prof.dr. J. Denollet

Area: V

Duration: 1-12-2002 until 1-12-2006

Funding: Tilburg University

*Accepted as P&H Research by the Research committee in 2003

Drs. D. Xanthopoulou, Department of Social & Organizational Psychology, Utrecht University*

A cross-cultural analysis of loss and gain spirals at work

Promotor: Prof.dr. W. Schaufeli

Co-promotor: Dr. A.B. Bakker

Area: III

Duration: 1-10-2002 until 1-10-2006

Funding: Siemens and Greek IKY State Scholarship Foundation

*externally funded Ph.D.-student

*Accepted as P&H Research by the Research committee in 2003

P&H dissertation projects started in 2004:

Drs. G. Barbareschi, Groningen University – NCG

Sociaal-economische status en gezondheid: De relatie met sterfte, overleving en aanpassing aan ziekte

Promotor: Prof. dr. R. Sanderman

Co-promotores: Dr. A.V. Ranchor & Dr. J. Tuinstra

Area: V

Duration: 1-3-2004 until 1-9-2007

Funding: Groningen University

Drs. M. van den Berg, Helen Dowling Instituut

Spirituality in patients with cancer - the development of a spirituality questionnaire

Promotor: Prof. dr. W.B. Schaufeli

Co-promotores: Dr. B. Garssen & Dr. A.P. Visser

Area: V

Duration: 1-7-2004 until 1-7-2007

Funding: KWF / Dutch Cancer Society

*Project taken over by Drs. E. de Jager-Meezenbroek since May 2006

Drs. L. Breeman, Department of Social & Organizational Psychology, Utrecht University

Seksualiteit en het zelf: Een onderzoek naar sekse-, sociale- en cultuurverschillen in seksueel zelfconcept als verklaring voor ongewenste zwangerschap en abortus onder jongeren

Promotor: Prof. dr. D. De Ridder

Co-promotores: Dr. J. de Wit & Dr. L. Woertman

Area: IV

Duration: 1-3-2004 until 1-11-2006
Funding: ZONmW
* project terminated after two years

Drs. K. van den Broek, Department of Psychology and Health, Section of Medical Psychology, Tilburg University
Psychological effects of invasive interventions in heart rate disorders: A prospective and comparative follow-up study on AF ablation, biventricular pacing and ICD implantation

Promotor: Prof. dr. J. Denollet
Area: V
Duration: 1-6-2004 until 31-5-2008
Funding: Tilburg University

Drs. M. Fischer, Department of Medical Psychology, Leiden University
Uitval bij poliklinische longrevalidatie: De rol van psychosociale factoren en wensen van COPD-patienten

Promotor: Prof.dr. A.A. Kaptein
Co-promotor: Dr. M. Scharloo
Area: V
Duration: 1-12-2004 until 1-12-2008
Funding: Asthma Fund

Drs. I. Henselmans, Groningen University, NCG
FACT – Feelings of Control and Adjustments to breast Cancer during the course of Treatment.

Promotor: Prof. Dr. R. Sanderman
Co-promotores: Dr. A. V. Ranchor & Dr. J. de Vries
Area: V
Duration: 1-11-2004 until 1-11-2008
Funding: KWF/Dutch Cancer Society

Drs. K. van der Houwen, Department of Clinical Psychology, Utrecht University
Individual differences in efficacy of the disclosure paradigm in bereavement: Styles of attachment.

Promotores: Prof. dr. J. van den Bout & Prof. dr. W. Stroebe
Co-promotores: Dr. M. Stroebe & Dr. H. Schut
Area: II
Duration: 1-9-2004 until 1-3-2009
Funding: Utrecht University

Drs. J. Jansen, NIVEL
Communication with elderly patients during nursing encounters preceding chemotherapy.

Promotor: Prof. dr. J. Bensing
Co-promotor: Dr. S. van Dulmen
Area: V
Duration: 1-5-2004 until 1-5-2008
Funding: KWF/Dutch Cancer Society

Drs. E. Massey, Department of Clinical and Health Psychology, Leiden University
Goal frustration, cognitive emotion regulation and Quality of Life in adolescent headache patients.

Promotor: Prof. dr. S. Maes
Co-promotores: Dr. W. Gebhardt & Dr. N. Garnefski
Area: IV
Duration: 1-5-2004 until 1-5-2008
Funding: Leiden University

Drs. M. Oosterom, Faculty of Medicine, UMC Utrecht, Utrecht University
The effect of comprehensive counseling by a nurse specialist on depressive symptoms and quality of life: A prospective randomized study in patients with head and neck cancer.

Promotores: Prof. dr. M.H.F. Grijpdonck & Prof. dr. A.P.M. Heintz

Co-promotores: Dr. R. de Leeuw & Dr. W. Ros
Area: V
Duration: 1-10-2004 until 1-10-2008
Funding: KWF/Dutch Cancer Society

Drs. D. Sabbe, Department of Movement and Sports Sciences, Ghent University*
Longitudinal research of the development and aetiology of adolescents' health behaviour.
Promotor: Prof. dr. I. De Bourdeaudhuij
Area: IV
Duration: 1-3- 2004 until 1-3 2008
Funding: Ghent University
*Project terminated after one year

Drs. S. Thormar, Department of Clinical and Health Psychology, Leiden University*
Self regulation and goal attainment: A daily process analysis proposal.
Promotor: Prof. dr. S. Maes
Area: IV
Duration: 1-7-2004 – 1-7-2008
Funding: Leiden University
*Project continued by Drs. V. Janssen since November 2005

Drs. B. Verkuil, Department of Clinical and Health Psychology, Leiden University
Worry interventions and health complaints
Promotor: Prof. dr. S. Maes
Co-promotor: Dr. J. Brosschot
Area: I
Duration: 1-2-2004 until 1-2-2008
Funding: Leiden University

P&H dissertation projects started in 2005:

Drs. M. Bal, Department of Economics & Business Administration, Vrije University Amsterdam*
The psychological contract between the older worker and the organization.
Promotor: Prof. dr. P. Jansen
Co-promotores: Dr. A. de Lange & Dr. M. van der Velde
Area: III
Duration: 1-8-2005 until 1-8-2009
Funding: VU University Amsterdam, Faculty of Economics and Business Administration
* Accepted as P&H Research by the Research committee in 2006

Drs. E. Bloem, Department of Medical Psychology, University of Amsterdam
Understanding changes in quality of life in cancer patients: a cognitive interview approach.
Promotores: Prof. dr. M.A.G. Sprangers & Prof. dr. C.C.E. Koning
Co-promotores: Dr. M.R.M. Visser & Dr. F.J. van Zuuren
Area: V
Duration: 1-9-2005 until 1-6-2010
Funding: KWF/Dutch Cancer Society

Drs. S. Franssen, Department of Medical Psychology, University of Amsterdam
Cancer patients' wish not to know and tailored information giving, a prospective study.
Promotores: Prof. dr. J.C.J.M. de Haes & Prof. dr. C.C.E. Koning
Co-promotor: Dr. E.M.A. Smets
Area: V
Duration: 1-12-2005 until 1-12-2009
Funding: KWF/Dutch Cancer Society

Drs. J. Gerrits, Department of Health Psychology, Utrecht University

The impact of prototypes and behavioural willingness on health-risk and health-promoting behaviour; Adolescents and (un)healthy eating.

Promotor: Prof. dr. D. de Ridder
Co-promotors: Dr. R. Kuijer & Dr. J. de Wit
Area: IV
Duration: 1-8-2005 until 1-8-2009
Funding: NWO

Drs. V. Janssen, Department of Clinical & Health Psychology, Leiden University

A self-regulation intervention program for lifestyle change in myocardial infarction patients.

Promotor: Prof. dr. S. Maes
Area: V
Duration: 1-11-2005 until 1-11-2009
Funding: Leiden University

Drs. I. Jellema, Department of Clinical & Health Psychology, Leiden University

Preparing young people for unanticipated and unplanned sexual encounters: A theory- and evidence-based approach to program development in the context of safe sex.

Promotor: Prof. S. Maes
Co-promotor: Dr. P. van Empelen
Area: IV
Duration: 1-12-2005 until 1-12-2009
Funding: ZoN-Mw

Drs. L. Jin, NCG, Groningen University

Sex differences in caregiving distress: The effects of role identity, self-theories, and feedback.

Promotors: Prof. dr. R. Sanderman & Prof. dr. N.W. van Yperen
Co-promotor: Dr. M. Hagedoorn
Area: V
Duration: 1-11-2005 until 1-11-2009
Funding: Groningen University

Drs. M. Kars, Department of Nursing Sciences, University Medical Center Utrecht

The experiences, needs and coping strategies of parents caring at home for their child with cancer in the palliative phase and the way nurses support them.

Promotors: Prof. dr. J.J.M. den Delder, Prof. dr. M.H.F. Grypdonck & Prof. dr. M. Verkerk
Area: V
Duration: 1-1-2005 until 1-8-2008
Funding: KWF/Dutch Cancer Society

Drs. W. Oerlemans, Department of Social & Organizational Psychology, Utrecht University

Healthy work relations between ethnic minorities and majorities: A study on social support, discrimination and well-being.

Promotor: Prof. dr. W. Schaufeli
Co-promotor: Dr. M. Peeters
Area: III
Duration: 10-1-2005 until 10-1-2009
Funding: Utrecht University

Drs. A. Rademaker, Central Militair Hospital, UMC Utrecht*

Personality Factors in PTSD; Studies on the relationship between trauma exposure, personality and therapeutic efficacy in Dutch soldiers

Promotor: Prof. dr. R. Kleber
Area: II
Duration: 1-1-2005 until 1-1-2008

Funding: Ministry of Defense
* Accepted as P&H Research by the Research committee in 2006

Drs. M. Schokker, NCG, Groningen University

Diabetes education: Undermining and promoting effects of self-adopted therapy goals and partner behaviour.

Promotors: Prof. dr. R. Sanderman & Prof. dr. B.H.R. Wolffenbuttel
Co-promotors: Dr. M. Hagedoorn, Dr. J. Bouma, Dr. J.C. Keers & Dr. T.P. Links
Area: V
Duration: 1-9-2005 until 1-9-2009
Funding: Groningen University

Drs. O.R.F. Smith, Department of Psychology & Health, University of Tilburg

Chronic and episodic determinants of chronic heart failure prognosis: A prospective study

Promotor: Prof. dr. J. Denollet
Co-promotors: Dr. Y. Gidron & Dr. J.B. Winter
Area: V
Duration: 1-1-2005 until 1-1-2008
Funding: Dutch Heart Foundation

Drs. K.G.E. Smolderen, Department of Psychology & Health, Tilburg University*

Type D and vascular atherosclerosis

Promotor: Prof. dr. J. Denollet & Prof. dr. J. de Vries
Co-promotor: Dr. A.E.A.M. Aquarius & Dr. S. Kranendonk
Area: I
Duration: 1-9-2005 until 1-9-2009
Funding:

* Accepted as P&H Research by the Research committee in 2006

Drs. A. Pelle, Department of Psychology & Health, University of Tilburg*

Type D-personality and heart failure: burden of a life-threatening cardiac condition in an ageing population

Promotor: Prof. dr. J. Denollet
Co-promotors: Dr. S. Pederson & Dr. B.M. Szabo
Area: I
Duration: 1-9-2005 until 1-9-2009
Funding:

* Accepted as P&H Research by the Research committee in 2006

2.5 Training program

The design of the P&H training program reflects the aim to offer a comprehensive, broad and internationally oriented program with a clear structure, but tailored as much as possible to the individual needs and expertise of the participants. The program thus offers a wide choice of optional modules in combination with a limited number of obligatory courses, including the General Introduction, the P&H Lecture series, the annual Seminar Ph.D.-Research I, the P&H Day, and the Core Module Introduction to Psychology and Health.

The P&H training program for Ph.D.-candidates is divided into five clusters (the minimum amount of hours to be spent between brackets):

- I. Orientation (160 hours)
- II. Domain specific theories (480 hours)
- III. Methodology and research techniques (240 hours)
- IV. General professional skills (160 hours)
- V. Individual supervision and counseling (400 hours)

Cluster I provides newly appointed Ph.D.-candidates with an orientation on recent scientific developments in the field of psychology and health. It also provides opportunities to get acquainted with fellow Ph.D.-candidates, senior researchers and their research projects. This cluster consists of the following components: the P&H General

Introduction during the first year; the P&H Lecture Series throughout the project; the P&H Seminar Ph.D.-Research I at the end of the first year, and the P&h Day (the annual Ph.D. Conference) at the end of the second and third year.

Cluster II, on domain specific theories, aims to improve the student's insight into the specific domain of study and to learn to conceptually situate research questions. The cluster consists of the Core Module, International Research Seminars, and individual tutorials. All Ph.D.-candidates are expected to participate in the five-day Core Module 'Introduction to Psychology and Health', in which senior researchers address themes in the field of psychology and health research. In 2006, this cluster included lectures and workshops on *Determinants of health behavior and strategies of change*; *Work, stress and health*; *Grief and bereavement*; *Depression and suicide*; *Communication and health care*; *Coping with chronic illness*; *Psychophysiology* and *Research Ethics*. Apart from the Core Module, Ph.D.-candidates are expected to participate in some of the International Research Seminars organized by P&H. In 2006, P&H hosted an international research seminar on *Intervention research in (Occupational) Health Psychology*, led by prof.dr. Wilmar Schaufeli (Utrecht University).

The Methodology and Research Techniques cluster (III) aims at increasing candidates' competence in methodology and techniques for empirical research, and, second, to offer technical support for current research projects. Ph.D.-candidates are offered a free choice of different advanced courses at Utrecht University.

Cluster IV consists of various courses aimed at enhancing general academic skills, including presentation techniques, both verbally and in writing, in Dutch and in English. In addition, this cluster offers courses on (basic skills in) teaching, and writing research proposals.

In addition, Ph.D.-candidates are offered the opportunity to participate in courses outside the P&H-curriculum, that are especially relevant to their research project.

Finally, a minimum of 400 hours (cluster V) throughout the project is reserved for individual supervision and assistance to the participant's dissertation work.

3. RESEARCH

3.1 Scientific mission

The research mission of the Research Institute for Psychology & Health (P&H) is “*the theory-guided study of psychological factors that influence health and illness and of the psychological consequences of somatic conditions*”. The P&H research program stands out, both nationally and internationally, by integrating three features: (1) health research is approached from a broad psychological perspective, incorporating biological, social, developmental, cognitive, and clinical psychology, (2) the majority of the researchers combine fundamental with applied research approaches, and (3) research focuses on mental as well as physical health. Two psychological sources of health and illness have been identified in our program, namely psychosocial stress and patterns of health behavior. The scientific investigation of these sources of health-impairment or enhancement, and of the psychological and physiological processes by which they affect health, are main research topics of P&H.

3.2 Research areas

The research program is structured in five areas: I. ‘Neurocognition and Psychophysiology of Health’; II. ‘Critical Life Events and Mental Health’; III. ‘Work, Stress, and Health’; IV ‘Health Behavior: Determinants, Consequences, and Strategies of Change’ and V. ‘Psychological and Psychobiological Factors in Adaptation to Chronic Illness’. Members (senior, postdoctoral, and affiliate) are listed in the area they formally participate in. Senior members who also formally participate in a second area are listed as p.m. in that area.

I. Neurocognition and Psychophysiology of Health

This area unites members with a primary orientation on psychophysiology, psychonomics and neuropsychology, respectively. Its main focus, driven by the health psychology oriented members, is the study of the physiological interface between stress and emotions on the one hand and disease risk and course of diseases on the other hand. In particular the role of cortisol, cardiac autonomic function, respiratory functioning and immune parameters are being explored. Aspects of stress and emotions that are studied are: work related stress (Utrecht), the role of worrying (Leiden University), and the effects of emotional (non) expression (Utrecht University and Leiden University). On the effects side, the focus is specifically on rheumatoid arthritis, occupational burnout, chronic fatigue syndrome, and medically unexplained syndromes (all at Utrecht University).

Coordinator: Prof.dr. L. van Doornen

Members of Area I on December 31, 2006, were:

Dr. A. Aquarius (UvT)
Dr. A.N. Brand (UU)
Dr. J. Brosschot (UL)
Dr. S. De Peuter (KUL/B)
Prof.dr. L. van Doornen (UU)
Prof.dr. R. Geenen (UU)
Drs. K. van der Hiele (UL)
Dr. J. Houtveen (UU)
Dr. N. Kupper (UvT)
Prof.dr. H.A.M. Middelkoop (UL)
Dr. H. van Middendorp (UU)
Drs. A. Pelle (UvT)
Dr. M. Smeets (UU)
Drs. O.R.F. Smith (UvT)
Drs. K. Smolderen (UvT)
Drs. B. Verkuil (UL)
Dr. I. Van Diest (KUL/B)
Prof.dr. H. van der Vlugt (UvT)
Dr. M. ter Wolbeek (UU)

Ph.D. students of area I on December 31, 2006, were:

Drs. K. van der Hiele (UL)
Drs. A. Pelle (UvT)
Drs. O.R.F. Smith (UvT)
Drs. K. Smolderen (UvT)
Drs. B. Verkuil (UL)

II. Critical Life Events and Mental Health

This research area is concerned with the study of impact, processes of coping, and health outcomes concerning the exposure to major life events (e.g., loss, war, violence, migration, burns, changes related to stages of life, e.g., childbirth or retirement). Studies are characterized by the emphasis on normal coping with major life events and the stagnation of these normal processes. Important issues are: healthy and unhealthy outcomes of responses to loss and trauma, basic psychological processes in adaptation to life events, determinants of disturbances in coping and health (including personality characteristics and the social context), characteristics of psychopathology, related assessment procedures, and specific event-focused interventions. The studies include various age groups, not only adults but also children, adolescents, and elderly. Both development of theory and application of acquired knowledge in prevention and clinical practice are essential in this area.

Coordinators: Dr. E.H.M. Eurelings-Bontekoe (Leiden University) and Prof. dr. R.J. Kleber (Utrecht University)

Members of Area II on December 31, 2006, were:

Dr. C. Bode (UT)
Dr. P. Boelen (UU)
Prof.dr. J. van den Bout (UU)
Dr. M.I. Broese van Groenou (VU)

III. Work, Stress, and Health

The focus of the research program of Area III is on understanding the psychological processes underlying work-related stress and illness. On the one hand, current theories in the domain of Work & Organizational Psychology are further refined and elaborated, whereas at the other hand, new theoretical models are being developed, thereby particularly drawing upon social psychology, personality psychology, and psychophysiology. More particularly, phenomena like work pressure, job stress, burnout, absenteeism, psychosomatic complaints, turnover, and job dissatisfaction are conceived as unwanted outcomes of work behavior caused by detrimental working situations. Research in Area III focuses particularly – but not exclusively – on high risk occupational sectors (health care, education, law enforcement) and on high risk groups (females and aged workers). The research program includes a variety of research methods, such as (longitudinal) field studies in different types of organizations, survey studies, and experimental studies.

Coordinator: Prof.dr. Wilmar Schaufeli

Members of area III on December 31, 2006, were:

Dr. M.H.J. Bekker (UvT)
Dr. P.M. Le Blanc (UU)
Prof.dr. R. Blonk (UU)
Dr. V. Brenninkmeijer (UU)
Prof.dr. H. De Witte (KUL/B)
Dr. E. Demerouti (UU)
Dr. M.P. van der Doef (UL)
Dr. R. van Doorn (UM)
Dr. H. van Emmerik (UU)
Dr. M. Euwema (UU)
Dr. E. van Hooft (EUR)
Prof.dr. J. de Jonge (TU Eindhoven)
Dr. M. Kools (UM)
Dr. A. de Lange (RUG)
Dr. M. Peeters (UU)
Dr. M.J. Schabracq (UvA)
Prof.dr. W.B. Schaufeli (UU)
Dr. H.O. Steensma (UL)
Prof.dr. J. Vinck (Hasselt University)
Dr. A. de Voogt (UM)
Prof.dr. W.A. Wagenaar
Prof.dr. F. Zijlstra (UM)

Ph.D. students of area III on December 31, 2006, were:

Drs. M. Bal (VU)
Drs. S. van den Linden (UU/Zorgcirkel Waterland)
Drs. E. Maris (UL)
Drs. Ph. Miles (UU/Mercer HR Consulting)
Drs. W. Oerlemans (UU)

IV. Health Behavior: Determinants, Consequences, and Strategies of Change

In industrialized countries, health-enhancing (e.g. exercising, eating a healthy diet) and health-impairing behavior patterns (e.g., smoking, alcohol abuse, overeating, sedentary lifestyle, sexual risk behavior) play an important role in preventing, or contributing to the development of chronic diseases such as CHD and cancers. It has been estimated, that even before the advent of AIDS, more than half of the premature mortality due to the leading causes of death was due to life-style factors and could have been prevented by adopting health-enhancing and/or abandoning health-impairing behaviors patterns. Thus, the focus of Area IV is on the primary prevention of illness through the study of the determinants of health behavior patterns and of strategies of change.

Coordinator: Prof. dr. John de Wit

Members of area IV on December 31, 2006, were:

Dr. N. Garnefski (UL)

Dr. W. Gebhardt (UL)

Dr. P. van Empelen (UL)
Dr. H.J. Hospers (UM)
Prof.dr. G. Kok (UM)
Dr. V. Kraaij (UL)
Prof.dr. C.M.J.G. Maes (UL)
Prof.dr. J.J. Rasker (UT)
Dr. R. Ruiter (UM)
Prof.dr. H. Schaalma (UM)
Prof.dr. E.R. Seydel (UT)
Prof.dr. W. Stroebe (UU)
Dr. E. Taal (UT)
Dr. M. Werrij (UM)
Prof.dr. J. de Wit (UU)

Ph.D. students of area IV on December 31, 2006, were:

Drs. M. Adriaanse (UU)
Drs. M. de Bruin (UM)
Drs. H. Feenstra (UM)
Drs. D. Franssens (UM)
Drs. J. Gerrits (UU)
Drs. S. Huisman (UL)
Drs. V. Janssen (UL)
Drs. I. Jellema (UL)
Drs. N. van Kesteren (UM)
Drs. K. Lemmens (UM)
Drs. E. Massey (UL)
Drs. J. Mikolajczak (UM)
Drs. E. Papies (UU)
Drs. G-J. Peters (UM)
Drs. J. Whittingham (UM)
Drs. G. ten Wolde (UL)

V. Psychological and Psychobiological Factors in Adaptation to Chronic Illness

This area is concerned with fundamental, strategic, and applied issues related to patient's adaptation to chronic somatic illness and the facilitating role of health care providers in this process. One focus of the research program lies on explaining adaptive efforts of chronically ill patients (adjustment to illness, change of health behaviors) in relation to coping resources and strategies, and quality of life. The emphasis lies on the role of goals and values as motivating devices in engaging in adaptive efforts. To that purpose, the stress-coping framework is broadened with notions from theories on self-regulation. Special attention is paid to the role of (limited) self-control and the way implementation intentions may help or hinder change of health behavior. Patients' illness cognitions are also a major concept in the theoretical and empirical work. It is studied how subjective health and symptom perception are related to negative emotional states and stress and to physiological responses. Attempts are made to explain the role of psycho-physiological mechanisms in bridging the gap between the psychological domain and the course of symptomatology (in collaboration with Area I). Another focus of the program is aimed at disseminating psychological knowledge in the medical setting, and involves testing psychological techniques - aimed at adaptation to illness - in interventions delivered in medical settings, as well as observational and experimental studies on health provider's communication styles that either help or hinder patients in their adaptation process. Special attention is paid to communication styles that contribute to patients' involvement in the health care process, including taking more responsibility for their own health and healthy behaviors.

Coordinators: Prof. dr. R. Sanderman, Prof. dr. J. Bensing, and Prof. dr. H. de Haes

Zandbelt, L. (08-12-2006). *Patient centered communication in the medical specialist consultation*. University of Amsterdam, Faculty of Medicine. (Co)promotors: **Prof. dr. J.C.J.M. de Haes**, Prof. dr. M.M. Levi, **Dr. E.M.A. Smets**, & Dr. F.J. Oort.

3.3 Lecture series

Since 1994, the Research Institute for Psychology & Health hosts the P&H Lecture series. International leading researchers in the field of psychology and health research are invited to give an address on a specific topic. Before or after the lecture, Ph.D.-candidates can arrange a personal consultation session with the guest speaker. As such, the Lecture series form an integral part of the P&H training program. In 2006, P&H organized lectures by:

Professor Alexander Rothman (University of Minnesota, USA) on *Is There Nothing So Practical as a Good Theory?: Lewin's Exhortation and the Study of Health Behavior Change*. January 19, 2006, lecture no. 49.

Professor Mario Minculincer (Bar Ilan University, Ramat Gan, Israel) on *The sense of attachment security as an inner resource: Boosting security to promote effective emotion regulation and mental health*. June 7, 2006, lecture no. 50.

4. PUBLICATIONS

Publications 2006	number	average per member (excl. Ph.D.-candidates)	average per fulltime fte (excl. Ph.D.-candidates)
Scientific (English)	393	3.7	8.6
Scientific (Non-English)	91	0.9	2.0
Professional publications	92	0.9	2.0
Total	576	5.4	12.5

* On December 31, 2006, the Research Institute included 107 senior researchers and postdocs (45.96 fte research time).

* Not counted are the publications by affiliated and pro memori members.

Scientific publications (English):
